The Alexander von Humboldt Foundation promotes academic cooperations between excellent foreign and German researchers. As a mediator of German foreign cultural and education policy, the Foundation promotes international cultural dialogue and scientific exchange.

- Support for stays abroad for scientists from Germany.
- A world-wide alumni network of more than 23,000 Humboldt-Fellows.
- Research fellowships and awards for research projects of foreign scientists at host institutions in Germany

[www.humboldt-foundation.de](http://www.humboldt-foundation.de)

Internationalize your research team by becoming a Humboldt host!

**Becoming an Humboldtian!**

Whether you are a postdoctoral researcher at the beginning of your academic career, an experienced, established academic, or even a world authority in your discipline – the Humboldt research fellowships and research awards offer sponsorship tailored to you and your career situation.

*The Alexander von Humboldt Foundation sponsors people, not projects!* There are no quotas, neither for countries nor for academic disciplines.

- 700 scholarships p.a.
- 26,000 Humboldtians in 140 countries
- 50 Nobel laureates

**International Scholars & Welcome Office (IScO)**

Your central contact point for all issues related to international mobility of researchers at KIT.

**Our services at a glance**

- Mobility programs, information on funding opportunities & scholarships
- Personalized assistance and support for visiting researchers and international new members of staff and their families
- Local, regional & international networks
- Social & cultural events
- Support and advice for KIT hosts

**KIT Research Alumni Initiative**

**What will be offered?**

**11. Humboldt-Tag**

**12:30-3:00 pm**

Services & support for international researchers at KIT
