## Lappeenranta University of Technology (LUT)

**LUT's Trailblazer strategy** is searching for answers to four key questions: Are we going to burn up everything? Is humanity condemned to suffer from the water it has polluted? Will waste be the grave of our future? Will we let Europe degenerate to the world's back yard? No. We will lead the way with a trail-blazer spirit. We have been ranked among the world's top universities (Times Higher Education and QS rankings). We are compact by size, with intensely focused operations. Combining technology and business, we have served as an academic forerunner since 1969. Our international science community encompasses 6,500 students and experts.
