

We cordially announce our new [Research Alumni KIT App](#) for our guest scientists and research alumni.

This “App” is actually a mobile website. We have chosen this format so that this app can be used by all smartphones or tablets, no matter what software they use (iOS, Android, Windows, etc.). You can use this mobile website as an App by clicking “install shortcut on desktop” in your settings. Then an icon will be installed on your desktop of your smartphone or tablet and you can use this mobile website as an App.

This application contains useful information for you such as: Research alumni activities at KIT, event calendar, financing opportunities for a research stay, KIT job market, international campus life, living in Karlsruhe, facts about Germany and much more.

Try it out and stay informed! In case of questions don't hesitate to [contact](#) us.
