Call for Applications for the Workshop: “Living, Conducting Research, and Working in Germany”

Dear international students, doctoral researchers, dear guest researchers,

Within the framework of the International Days 2019, International Affairs (INTL) will organize the workshop “**Living, Conducting Research, and Working in Germany**” hosted by Dr. Manuel Vermeer. Dr. Manuel Vermeer, son of a German father and an Indian mother, lived and studied in China as early as 1982. For more than 25 years, he has been one of Germany’s leading consultants for doing business in China and India. He teaches Business Chinese and Intercultural Management at the East Asia Institute, Ludwigshafen (Germany). His extensive experience as an intermediary for foreign companies in China and India has helped many clients in solving their problems.

The workshop is intended to facilitate the stay of foreign students, doctoral researchers, and guest researchers at KIT in the early stage. Participants will have the opportunity to learn about German history, culture, interaction, relations between teacher/students, man/woman, and colleagues. Specific do’s and don’ts, clichés, and everyday problems will also be addressed. The participants of this workshop will discuss their cultures and work on mutual intercultural understanding.

The workshop will be limited to 20 people and will take place on October 10, 2019 from 9:00 am to 5:00 pm. The workshop will be held in English. Participation will be free of charge.

Due to the limited number of participants, you are requested to apply for this workshop by sending us a motivation letter stating why you would like to participate and your current CV. Please also mention for how long you have been in Germany. The deadline for applications is September 15, 2019. Please send your application to internationaldays@intl.kit.edu.

Participants will receive a certificate after attending this workshop.

Yours sincerely,
