Excursions & Regional Seminars

Discover local, regional, and seasonal attractions in and around Karlsruhe

IScO has put together a series of excursions that take you to places and events where you can experience the regional sights / history / culture / way of life.

The excursions usually take place on a Saturday, and besides visiting the attractions, you can meet likeminded people and find out how to get around on public transport.

The Regional Seminars offer a deeper look into regional topics. During a get-together on Friday, the Saturday excursion is prepared for, with some information on the subject and light (hearted) exercises of the corresponding German language.

The excursions and seminars are partially subsidized by DAAD STIBET.
