

**Guided tour!**
**(Behind the scenes)**

The Humboldt Regional Group Karlsruhe-Pforzheim and the International Welcome Office at KIT cordially invite Humboldtians, members of the Humboldt Regional Group, and IEG and ICM Fellows to a guided tour:

# Inside KARA

## the Karlsruhe Research Accelerator

KIT's **accelerator test facilities KARA, FLUTE and cSTART** provide electron beams and intense THz and X-ray synchrotron radiation for experiments in accelerator physics and technologies and for photon science.

Research here ranges from **superconducting magnets** and **ultrafast detectors** to **AI, robotics** and **laser-based miniature accelerators**, and to **sustainable energy concepts** for large research infrastructures at KITTEN.

### Date & Time

**Thursday, January 21, 2027**
3:00 – 7:00 PM

### Venue

**Building 348**, seminar room
west entrance, 2nd floor
KIT Campus North
76344 Eggenstein-Leopoldshafen

### Program

Guided tour of the accelerator facility with Humboldtian **Erik Bründermann** (IBPT), followed by networking

### Registration

By e-mail to **avh@intl.kit.edu**
Contact: Oliver Kaas
oliver.kaas@kit.edu

A JOINT EVENT OF

**The Humboldt Regional Group Karlsruhe-Pforzheim and the International Welcome Office at KIT**

KIT Karlsruhe Institute of Technology
