

Advent

Regional Seminar, IScO

1st December 2018, in the KIT International Guesthouse

Twenty international Scientists meet for a project:

Getting to know Christmas traditions and having hands on experience!

Baking

According to old recipes, the dough was rolled, the figures cut out, and later topped with jam or chocolate.

Mixing drinks

Mulled wine, aromatic christmas tea, spicy hot chocolate.

Making stars

Cut the straw, arrange the pieces in the special frame, bind the crossing points, cut off some ends and ...VOILA!

A star is born.

Decorating the tree

You have never seen a prettier one!
